Nicole

I did not attend that BID consortium meeting, so not too familiar with the specifics of the ask. I believe she is asking what type of Data the EHBID can provide them. Right?

What do we have besides, property owner contact info, APNs and the \$ they contribute to the BID?

The EHBID does not keep track of much else, which is why converting our website to Nationbuilder is important as it will keep this data in its database.

Building on Miranda's list these are the additional types of data I would be interested in.

- 1- Tax collections in the City – with breakdown of types of taxes (ie: property taxes, sales taxes, occupancy taxes,
- 2- List of businesses, including full contact information, mailing address, telephone #, email addresses and websites
- 3- Real estate information
- 4- Office space/buildings available for lease/sale
- 5- Visitor/tourism information
- 6- Census data
- 7- Contact information for nonprofit organizations with contracts to help homeless across the City.
- 8- List of Property Owners with full contact information including, Telephone #'s and email addresses
- 9- List of recycling centers including full contact information, and their recycling production
- 10- List of Liquor licenses with types of licenses
- 11- List of street Furniture, Fixtures and Equipment and full contact information of which entities are responsible for each
- 12- List of homeless service providers
- 13- Homeless data
- 14-

Vaya con Dios,

Subject: Data Layers Request From the City Clerk's Office

Good Afternoon,

Miranda Pastor from the City Clerk's office is requesting information from BIDs regarding Data Layers. Please see the email below and submit responses to miranda.paster@lacity.org. Thank you!

Have a great day,
Jasmine Ramos
Administrative Assistant
LA Fashion District BID

Hello,

In an effort to comply with the Mayor's goal of "Big Data and Transparency", I asked the BIDs to let me know what data they would like to see on our website (at BID Consortium meeting). I don't believe that I have received one response. I want to see if I can get data on our website that might be helpful to the BID business. I am thinking of data such as tax collections in the City, list of businesses, real estate information (e.g., office space/buildings available for lease/sale, visitor/tourism information, census data, contact information for nonprofit organizations with contracts to help homeless across the City.

Do you have any information that you would like to see added?

Thank you.
